

**Middlesex
County
Beekeepers
Association**

Swarm Coordinator

Ms. Alix Bartsch

781-630-1129 or albartsch@rcn.com

Before you contact the swarm coordinator please make sure you can answer the following questions:

1. Confirm that these are **Honeybees!** Please follow this link: [What's buzzin'](#)
2. Location (address, tree, or in a house/wall, how high up? Are ladders or other equipment needed?)
3. How large is the swarm (melon, football, basketball)?
4. How long has it been there since it was noticed?
5. Contact information? Alix will coordinate with an interested member who will need to contact you directly.

Exterminators will not kill honeybees and often refer homeowners to find a beekeeper. Conversely, beekeepers are not exterminators and will not remove other insects. Please make sure they are honeybees and THANK YOU for your interest in helping this important pollinator.
